

Raman Spectroscopy of the S-type Symbiotic Star V455 Sco

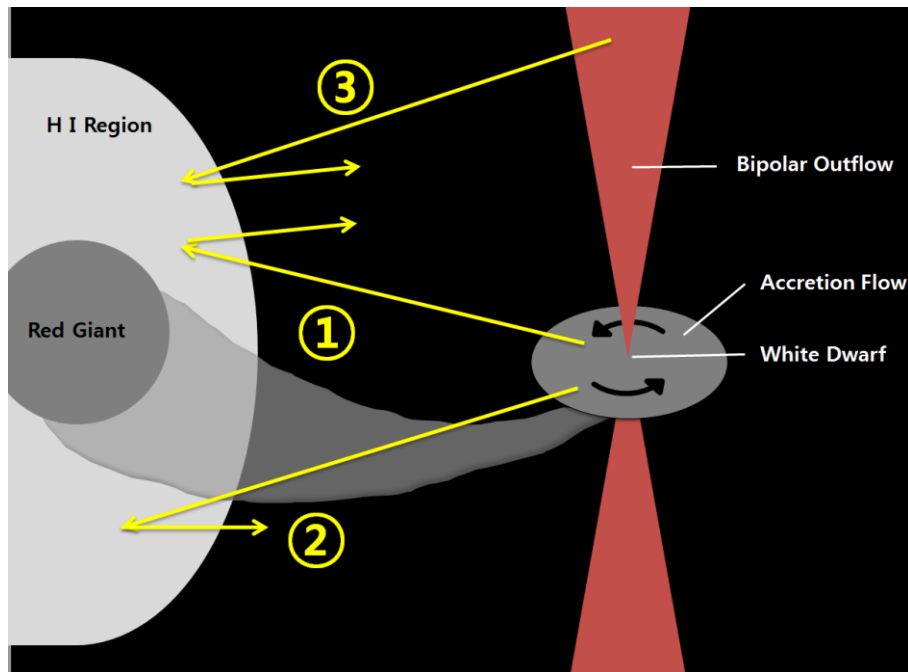

Raman O VI 1032 at 6825Å in V455 Sco

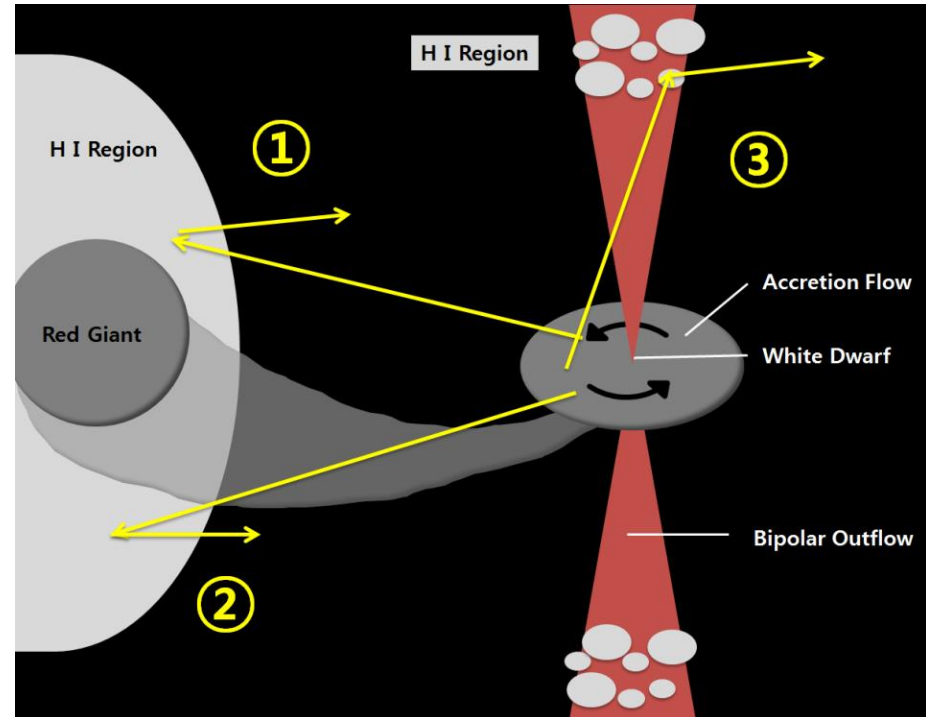

Where is the third peak from?

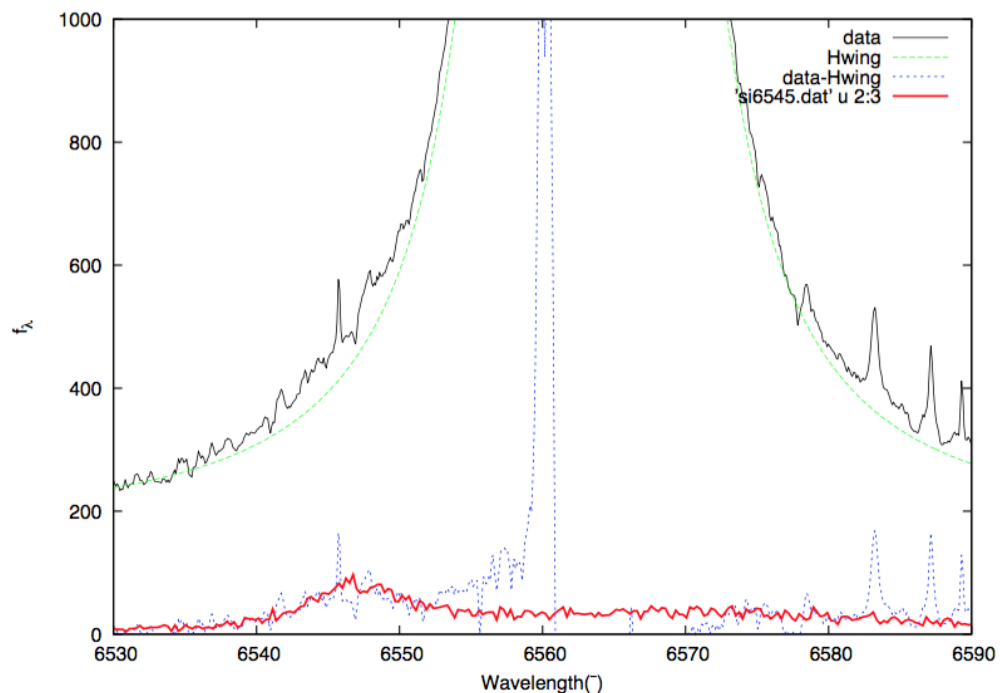

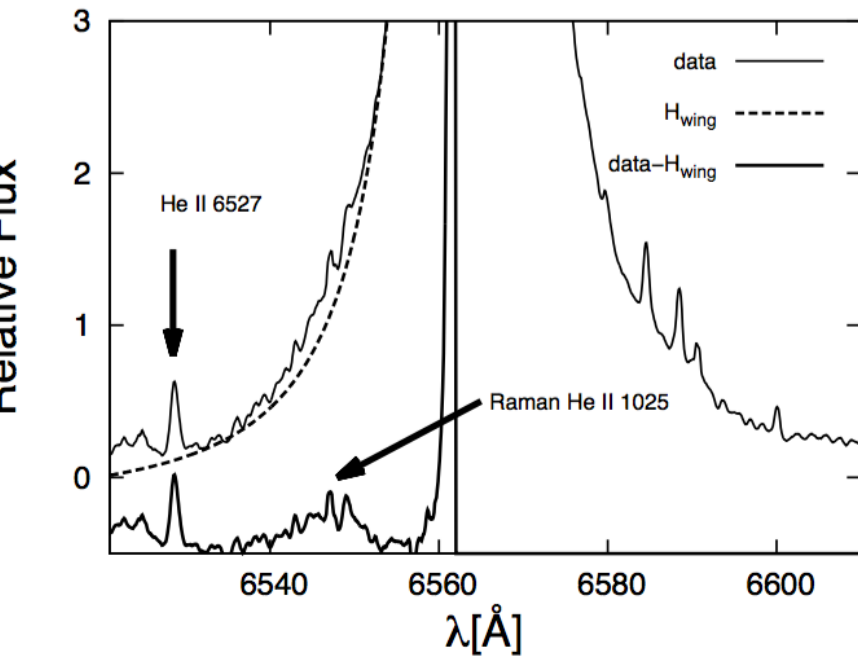

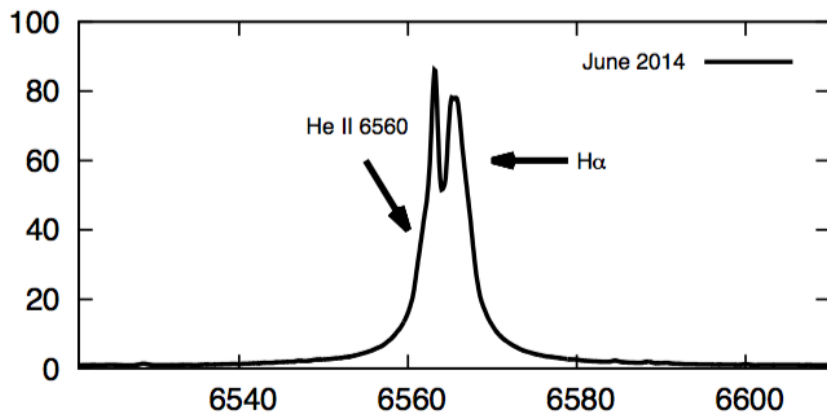

i) O VI emission region in the bipolar outflow

ii) H I region immersed in the bipolar outflow

Raman He II 1025 at 6545Å in V455 Sco

Raman He II 972 at 4850Å in V455 Sco
